

## Training and professional development opportunities for leaders and managers

## Regional Inspection Briefings for Leaders and Managers

### About this briefing:

Each term we analyse hundreds of Ofsted inspection reports so that the sector can better understand the nature of the issues that lead to inadequate and RI inspection outcomes. We update this information termly in order to identify emerging issues and recurring themes, we then share this with leaders and managers to help you to identify potential issues that may become problematic during an inspection.

### During this session we will:

- Provide you with an understanding of the national and regionally inspection picture under the new Education Inspection Framework.
- Highlight areas of practice that are appearing with frequency within inadequate and RI inspection reports both nationally and regionally.
- Unpick the most frequently occurring actions and recommendations to better understanding the implications for practice.
- Provide you with questions and points that will help you to interrogate practice to a deeper level.

### How to book:

Simply email [ey.fundamentals@gmail.com](mailto:ey.fundamentals@gmail.com) and we'll book a provisional place for you. Your place will be secured once payment has been made.

### What delegates said about this briefing:

*"Well delivered by a very knowledgeable professional. Put your mind at ease about any anxieties/misconceptions about the new frame"*

*"Course very well delivered. Content was very helpful."*

*"Will give you things to work on and think about."*

### Can I book this as an in-house training event for my team/nurseries?

The content of this briefing can be developed into a 3-hour course which will help you to review what you do and how effective it is. We will also provide you with audit tools to help you review your practice.
